EARLY MORNING												
		06:45-07:30 Morning Grounding Yoga with Carly 07:45-08:30 Morning Yoga with Violet 08:45-09:30 Morning Yoga with Violet										
10:00	10:00-10:55 SCALING REGENERATIVE AGRICULTURE: CONNECTING GLOBAL PRACTICE, SCIENTIFIC EVIDENCE AND SYSTEMS CHANGE Philippe Birker, Will Harris, Loekie Schreefel, Julia Bolton, Manoj Kumar Regenerative agriculture is moving from the margins to the mainstream. This panel brings together leaders from farming, science and finance to explore how.	10:00-10:55 INSIGHTS FROM ARABLE FARMING IN DROUGHT CONDITIONS IN EUROPE Chantal Brown, Attila Kokeny Join LENs (Landscape Enterprise Networks) regen agronomists & farmers from Europe to see how yields increase by building resilient soils. Discover how regen practices help capture and store moisture.	10:00-10:55 REGENERATIVE GRAZING WORKING FOR DAIRY Kate Still, Tom Gregory, Matthew Senior, Dan Gammon, Rob Purdew Grazing management is a flexible tool that can work harder and smarter for the whole system. Dairy farmers explore taller grass grazing trials and practical grazing approaches that deliver for cows, soils and whole farm resilience.	10:00-10:55 THROUGH THE FARM GATE: REMOVING BARRIERS, BUILDING BELONGING Hannah Jones McVey, Nisbah Hussain, Jonty Brunyee What stops people engaging with farming through school, as consumers or as future entrants? We'll explore barriers and how navigating them enables more people to develop a meaningful connection to the land.	10:00-10:55 FIELD TO FORK: UNLOCKING THE UK'S PULSE POTENTIAL Hugh Fearnley-Whittingstall, Anna Taylor, Josiah Meldrum, Adam Palmer, Emma Loder-Symonds Hear sector experts discuss opportunities and challenges around expanding bean and pulse cultivation in the UK, & what's needed to support farmers to boost British beans, with a focus on creating local supply chains.	10:00-10:55 BUILD YOUR FARMING DREAM Rob Havard Follow the journey of growing a farm business, through successes and failures, from 40 to 1000 acres and a six figure profit!	10:00-10:55 REBUILDING BRITISH WOOL FROM THE SOIL UP Ruth Alice Rands, Sarah Langford, Jo Dawson, Lesley Prior, Anna Heaton A panel exploring how Britain can learn from successful international models to rebuild a thriving U.K. wool industry that restores soil strengthens rural economies and supports 'Made in the U.K.'.	10:00-10:55 MY FLOUR MILL SET ME FREE Henry Astor How a flour mill transformed a farming business; increased biodiversity and built community.		10:00-10:55 OPTIMISING PLANT PROTECTION Dave Bell, John Cussans, Fiona Burnett, Lawrence Bramham, Rachel Wells Following four 10 minute presentations on resistance management in weed, pest and diseases and on RNAi solutions for pest control, a panel discussion will consider best practice PPP use and alternative options.		
11:00												
					11:15-11:45 ROTATIONS FOR FIELD VEGETABLES Christine Watson, Andy Dibben, David Newman Practical insights from Agricollogy's new guide, with Andy Dibben and David Newman sharing real world approaches to designing, adapting and implementing rotations to improve soil health, manage weeds and pests and improve crop performance.						11:00-11:55 TODAY'S MENU – AGROECOLOGICAL FOODS TO CELEBRATE NOW Jack Feeny, Sam Ratanji, Hannah Thomas Every credible food system model for the future requires us all to shift our diets. Join Tomorrow's Kitchen and explore ingredients that can regenerate ecosystems and help create a just and resilient food system.	
12:00	12:00-12:55 ULTRA PROCESSED FOOD SYSTEMS – THE MOST URGENT THREAT TO HUMAN AND PLANETARY HEALTH Chris van Tulleken The Global UPF system is where human and planetary health collides, and we need deeper alliances between those who are working to solve these intertwined problems.	12:00-12:55 THE FUTURE OF FARMING IS COLLECTIVE Stephan De Brabandere, Jyoti Fernandes, Douwe Korting, Jackie Thoms How communities, cooperation and new ownership models are regenerating farming. Discover practical examples from across Europe that are opening new pathways into farming and strengthening connections between land, food and community.	12:00-12:55 NO FARMER LEFT BEHIND: SOLIDARITY ACROSS SUPPLY CHAINS Maximiliano Manzoni, Fabiola Torres, Lily O'Mara, Ruth Westcott A panel chaired by Sustain with Bertha Challenge journalists and campaigners from Uruguay, Peru and the UK on farming solidarity, climate justice and the corporate interests reshaping agriculture on both sides.	12:00-13:15 FIND IT. SHAPE IT. SHARE IT: STORYTELLING WITH JUST FARMERS™ Anna Jones, Emily Davies Good storytelling is all about structure, and instinct. In this workshop, learn the formula, develop your nose for a good story and improve communication with your audiences, inside and outside of farming.	12:00-12:55 TELLING THE RIGHT STORIES Mary Colwell We have understood the power of stories for as long as we have been human. Through them we tell each other what has meaning, what is good, what is bad, what is right or wrong. This session explores nature stories, what works, and what doesn't.	12:00-12:55 FROM FIELD TO VASE: SEASONAL FLOWERS IN REGENERATIVE FARMING SYSTEMS Georgie Newbery, Olivia Wilson Led by Flowers from the Farm, this seminar explores how flowers can be integrated into arable, livestock, mixed farming systems and market gardens.	12:00-13:45 NATURE MARKET UPDATE & SOIL CARBON SHOWCASE Susan Twining, Lucy George, Will Lockhart & The Soil Carbon Showcase Explore public and private environmental funding, understand risks and future prospects, hear the latest Defra policy update, and discover how soil carbon can generate resilient income for your land.	12:00-12:55 MOB GRAZING FARM TRIALS – WHAT HAVE WE LEARNT? Lizzie Sagoo, James Standen, Claire Whittle, John Cherry This session will share research findings and farmer experiences from experiments set up to compare the impacts and benefits of mob and conventional grazing practices on nine farms sites between 2021 and 2025.	12:00-12:55 RECLAIMING OUR HISTORY: WOMEN IN DEER MANAGEMENT AND LIFE ON THE LAND Georgina Cockett, Helen Stammers, Naomi Sykes, Rhian Tyne Women have long shaped deer and land management, yet this history is often overlooked. This session reclaims that legacy, exploring ethical practice and inclusive futures on the land.			
13:00												
					13:15-13:45 GOT A PROJECT IDEA? MEET THE ADOPT FACILITATORS Daniel Kindred, Harriet Scott, Laura Beaumont, Mary Dimambro, Lindsay Marfleet, Colin Peters Every ADOPT project needs a facilitator, and finding the right one matters. Hear experienced facilitators to talk honestly about what good projects look like. Followed by a meet-and-greet in the Snug.							
14:00	14:00-14:55 GEOPOLITICS, ENVIRONMENT & FOOD SECURITY: THE FUTURE DRIVERS OF UK AGRICULTURE Rosie Boycott, Tim Benton What does a more volatile world mean for UK agriculture and the drivers of transition towards more sustainability? We will explore the broad geopolitical context that shapes agriculture.	14:00-14:55 CULTIVATING A STRATEGY – MATCHING CULTIVATIONS TO SOIL NEEDS FOR REGENERATIVE AGRICULTURE Elizabeth Stockdale, Simon Cowell, Philip Wright, Joseph Martlew Collaborative workshop exploring how to identify situations where soils benefit from targeted disturbance to improve our regenerative systems, drawing on farmer's experience.	14:00-14:55 NATURE FOR FLOCKS SAKE Jason Gittins, Luiz Dematte, David Brass Two egg producers, who between them pack over 2 million eggs a day, share how putting nature at the heart of their business has led to happier hens and higher profits.	14:00-14:55 WHAT HOLDS FARMER CLUSTERS TOGETHER: FACILITATION, TRUST AND PRACTICE Pieter Ploeg, William Rawling, Tim Field, Hamish Evans, Jenny Phelps Farmer clusters often struggle with trust, fairness, and keeping everyone on board. Join this workshop to share stories, tackle tough questions, and learn what works in making collaborations last.	14:00-14:55 GROWING FUTURES: FOOD, FARMING AND NATURE James Milne, Oliver Tyrrell, Amy Arnold, Terry Jermy MP How can farming, food, soil and nature shape children's futures? Explore the decade-long Euston Estate and Barnham Primary partnership, with Terry Jermy MP reflecting on its impact on pupils' connection to nature.	14:00-14:55 8 MINUTE IDEAS ON 'NOVEL USE' CROPS Rob Yorke, Tom Avery, Emma Loder-Symonds, Jon Myhill, Elizabeth Stockdale, Pierre-O Bonhomme Groundswell's Agri-Mock the Week meets Dragon's Den as 5 speakers pitch their ideas and face Q&As from the audience.	14:00-14:55 USING ENERGY FLOWS TO MONITOR SOIL HEALTH Jed Soleiman Measuring energy flows in ecosystems is emerging as a way to measure their health. Here, we present results from a FarmED case study, monitoring energy in soils to understand how herbal leys improve soil conditions.	14:00-14:55 REGENERATIVE: OUTCOME, PRACTICE OR PHILOSOPHY? Sara Hall, Dr Ruth Wade, Ollie Blackburn, Dr Richard Kipling Who Gets to Decide? Who defines regenerative agriculture and how should it be measured? This session explores the tensions between philosophy, practices, and outcomes, bringing together farmer experience and research.	14:00-14:55 LANDMATCHING IN PRACTICE: UNLOCKING NEW ENTERPRISES ON YOUR FARM Cordelia Hughes, Tom Pearson, Adrienne Gordon, Holly Smith Discover how farmers are diversifying by partnering with growers and producers looking for land. Hear from speakers developing land-sharing agreements that support new local food enterprises.

EARLY MORNING						Event Mobility Stand 06:00 Early morning bird walk with FWAG		09:00 NIAB Stand Tour			
10:00						10:00-10:25 CURIOUS ABOUT AGROFORESTRY? Kinna Mosley, Ellen Smith Join this introductory session to find out about agroforestry and how it can work for your farm.		10:00-10:55 COMPOST FOR GARDENERS, AGROFORESTRY AND FARMS Michael Kennard, Daniel Iddon Learn about composting at both on-farm and urban scale with Michael Kennard from the Compost Club and Daniel Iddon from Re-Genus.		10:30-11:25 THE THERAPEUTIC VALUE OF NATURAL SYSTEMS Dave Mountjoy, Ben Goldsmith In collaboration with renownedrewilder and environmentalist Ben Goldsmith, we explore the therapeutic benefits ofrewilding and natural farming systems to our health, wellbeing and sense of identity, and screen a short film.	
11:00						11:00-11:55 REGEN FIELD TRIP Abby Rose, Annie Landless, Greer Manderson, Tristan Leslie Learn how to monitor the 10 Regen Indicators in the field with the Soilmentor team and supporting coaches. See how you can use the indicators and many other observations to support you in deciding what actions to take (or not take) on your land.		11:00-11:55 FEED YOUR SOIL WITH CASH CROPS Josiah Meldrum, Nicola Giuggioli Join Josiah (Hodmedods) and Nicola (Quintospore, Italy) as they discuss how various crop species feed soil, and how through longer and more diverse rotations, farmers can improve the soils they work with.		11:45-12:15 ONE HEALTH NUTRITION FROM SOIL TO HUMAN HEALTH Tim Parton, Lucy Williamson Tim practises Intelligent Farming in place of synthetic inputs. Lucy champions Soil to Gut nutrition. Join them as they examine the resilience, diversity and connectedness of the farming and food system.	
12:00						11:00-11:55 BIODIVERSITY BIMBLE Duncan Coston, Sarah Cook, Claire Carvell, Bex Cartwright, Rachel Richards Learn to identify wild plants and farmland invertebrates, explore natural pest control and see sweep nets, bug nets and pooters in action.		11:00-11:55 WHAT IS FARMING'S ROLE IN RESTORING OUR RIVERS? Alan Lovell, Tim Field, Amanda Broom, Tessa Wardley, Lee Truelove Water reform in England is on the cards, with big changes coming to water companies and water regulation. But sewage is not the whole picture. What role can the food and farming sector play in reducing pollution?		12:00-12:45 HOW TO FEED YOUR SOIL ON OLIVE GROVES AND VINEYARDS Will Rolph, Sarah Fulton Vachon, Abby Rose Join Will (Two Fields Zakros, Greece), Sarah (Citizens of Soil) and Abby (Soilmentor, Chile) in a discussion of how they feed their soils for thriving vines and olive trees.	
13:00						11:30-12:25 COMFORT, SHADE, WATER: HOW ANIMALS READ THE LANDSCAPE Dr Lindsay Whistance, James Robinson Explore how farmed animals read the landscape. Learn what grazing, shade, water, & shelter choices reveal about heat, wind, flies, forage, and how to tweak farm layout for better comfort and grazing.		13:00-13:55 ONE BALE AT A TIME: BALE GRAZING, ECONOMICS AND SOIL CHANGE Claire Beaumont, Tom Burge, Tristan Leslie, Ian Steele Using detailed farm case studies, we'll explore how bale grazing affects finance, labour, soil health and resilience over time.		13:00-13:55 HERBS TO HERD Lynn Briggs, Chris Berry, Grace Welling, Ellis Roberts, Tom Chapman Exploring multi-species swards for improved performance.	
14:00						11:30-12:25 COMFORT, SHADE, WATER: HOW ANIMALS READ THE LANDSCAPE Dr Lindsay Whistance, James Robinson Explore how farmed animals read the landscape. Learn what grazing, shade, water, & shelter choices reveal about heat, wind, flies, forage, and how to tweak farm layout for better comfort and grazing.		13:00-13:55 SOIL SURGERY Get 1-to-1 advice from farmers and soil experts on feeding your soils with compost, Bokashi, Johnson-Su, Korean natural farming, biodynamics, microbes, vermicast and cover crops. Bring your soil samples for free soil tests!		14:00-14:25 SOLUTIONS TO FEED YOUR SOILS FROM AROUND THE WORLD The Land Gardeners, Benedikt Bösel Join The Land Gardeners and Benedikt Bösel (Gut&Bösel) for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
15:00						13:00-13:15 UK FARM AGRI DEMO		13:00-13:55 MAKING EVERY LINK: SUPPORTING NATURE FRIENDLY FARMERS IN SUPPLY CHAINS Vicki Hird, Ben Andrews, Tom Pearson, Kiloran O'leary, Josiah Meldrum From farmer to consumer, what changes need to happen in supply chains to support our nature friendly farmers, and what examples can we use from other countries that drive nature friendly practices?		14:25-14:55 SALVAGED SCULPTURE – CAPTURING CONTRASTS AND BRIDGING CHANGE James Wild James Wild explores the inspiration, creative development and process behind his sculpture 'Regeneration' and how contrasting narratives of nature and the modern age can be bridged through abstract art.	
16:00						13:15-13:30 VADERSTAD DEMO		13:30-14:25 DEVELOPING MACHINERY FOR NUT HARVESTING Dr Lindsay Whistance, James Robinson Exploring how cost-effective harvesting and processing can unlock the potential of UK hazelnut and walnut production.		15:00-15:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
17:00						13:30-13:45 HORSCH DEMO		13:45-14:00 OPICO DEMO		15:30-16:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
18:00						13:45-14:00 OPICO DEMO		14:00-14:25 SOLUTIONS TO FEED YOUR SOILS FROM AROUND THE WORLD The Land Gardeners, Benedikt Bösel Join The Land Gardeners and Benedikt Bösel (Gut&Bösel) for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		16:00-16:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
19:00						14:00-14:25 SOLUTIONS TO FEED YOUR SOILS FROM AROUND THE WORLD The Land Gardeners, Benedikt Bösel Join The Land Gardeners and Benedikt Bösel (Gut&Bösel) for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		14:25-14:55 SALVAGED SCULPTURE – CAPTURING CONTRASTS AND BRIDGING CHANGE James Wild James Wild explores the inspiration, creative development and process behind his sculpture 'Regeneration' and how contrasting narratives of nature and the modern age can be bridged through abstract art.		17:00-17:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
20:00						14:25-14:55 SALVAGED SCULPTURE – CAPTURING CONTRASTS AND BRIDGING CHANGE James Wild James Wild explores the inspiration, creative development and process behind his sculpture 'Regeneration' and how contrasting narratives of nature and the modern age can be bridged through abstract art.		14:55-15:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		18:00-18:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
21:00						14:55-15:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		15:30-16:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		19:00-19:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
22:00						15:30-16:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		16:00-16:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		20:00-20:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
23:00						16:00-16:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		16:30-17:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		21:00-21:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
24:00						16:30-17:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		17:00-17:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		22:00-22:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
25:00						17:00-17:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		17:30-18:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		23:00-23:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
26:00						17:30-18:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		18:00-18:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		24:00-24:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
27:00						18:00-18:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		18:30-19:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		25:00-25:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
28:00						18:30-19:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		19:00-19:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		26:00-26:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
29:00						19:00-19:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		19:30-20:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		27:00-27:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
30:00						19:30-20:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		20:00-20:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		28:00-28:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
31:00						20:00-20:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		20:30-21:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		29:00-29:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
32:00						20:30-21:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		21:00-21:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		30:00-30:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
33:00						21:00-21:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		21:30-22:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		31:00-31:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
34:00						21:30-22:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		22:00-22:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		32:00-32:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
35:00						22:00-22:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		22:30-23:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		33:00-33:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
36:00						22:30-23:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		23:00-23:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		34:00-34:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
37:00						23:00-23:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		23:30-24:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		35:00-35:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
38:00						23:30-24:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		24:00-24:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		36:00-36:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
39:00						24:00-24:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		24:30-25:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		37:00-37:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
40:00						24:30-25:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		25:00-25:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		38:00-38:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
41:00						25:00-25:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		25:30-26:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		39:00-39:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
42:00						25:30-26:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		26:00-26:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		40:00-40:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
43:00						26:00-26:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		26:30-27:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		41:00-41:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
44:00						26:30-27:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		27:00-27:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		42:00-42:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
45:00						27:00-27:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		27:30-28:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		43:00-43:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
46:00						27:30-28:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		28:00-28:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		44:00-44:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
47:00						28:00-28:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		28:30-29:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		45:00-45:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
48:00						28:30-29:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		29:00-29:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		46:00-46:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
49:00						29:00-29:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		29:30-30:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		47:00-47:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
50:00						29:30-30:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		30:00-30:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		48:00-48:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
51:00						30:00-30:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		30:30-31:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		49:00-49:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
52:00						30:30-31:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		31:00-31:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		50:00-50:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
53:00						31:00-31:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		31:30-32:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		51:00-51:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
54:00						31:30-32:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		32:00-32:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		52:00-52:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
55:00						32:00-32:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		32:30-33:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		53:00-53:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
56:00						32:30-33:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		33:00-33:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		54:00-54:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
57:00						33:00-33:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		33:30-34:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		55:00-55:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
58:00						33:30-34:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		34:00-34:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		56:00-56:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
59:00						34:00-34:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		34:30-35:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		57:00-57:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
60:00						34:30-35:00 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		35:00-35:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.		58:00-58:30 THE LAND GARDENERS The Land Gardeners Join The Land Gardeners for a practical discussion on how to improve the soil at scale, from compost, plant brews, quantum agriculture, crop rotation, agroforestry & livestock.	
61:00											

MAIN STAGE BIG TOP		SEMINAR TENT		GRASS TENT		THE WORKSHOP		THE STUDY		SPEAKER'S CORNER		SOIL TENT		BREAKOUT TENT		EARTHWORM ARMS BIG TOP	
15:00  15:15-15:45 AFTER NO-TILL: WHAT'S NEXT FOR COVER CROPS, LIVING MULCHES AND SOIL HEALTH? Wallace Currie, Ryan McCormack, Andrew Gray, John Gibson, Ben Adams Cover cropping has become regen orthodoxy. But a decade in, what's actually working? Four farmers running ADOPT trials share what they've learned, and where the next questions sit. 15:00-15:55 COVER CROPS CLINIC: THE GOOD, THE BAD AND THE BIOLOGICAL Bek Hirstman, Anne Bhogal, Ana Reynolds, Toby Simpson, David George, Angus Gowthorpe An interactive workshop with a chance to drill down into the practical aspects of growing cover crops with AHDB, members of the Cover Crops Guide steering group and research partners from ADAS and PGRO.																	
16:00 16:00-16:55 ASSESSING REGENERATIVE AGRICULTURE'S PROMISE: LESSONS FROM THE 1000 FARMS INITIATIVE Dr. Jonathan Lundgren Learn about a project that travelled across 2000 farms in N. America, gathering data to establish the effects of regenerative systems on water, biodiversity, carbon, nutrients & more.		16:00-16:55 LOCAL MARKETS AND SHORTER SUPPLY CHAINS – WHAT IS THEIR FUTURE? Sheila Dillon, William Kendall, Sarah Dunning, Will Greig 20 years on from the launch of the Aldeburgh Food & Drink Festival, the founders are joined by other leading supply chain disrupters to discuss how to capture more value from the ultimate consumer.		16:00-16:55 SOIL FARMER OF THE YEAR AWARDS CEREMONY Stefan Marks, Colin Chappell, Paul Baker, Chris Molyneux Find out who has been awarded the top spots in this year's Soil Farmer competition, championing farmers who are passionate about building healthy soils, and hear their stories and learnings.		16:00-16:55 HOW DO WE REGENERATE SCHOOL MEALS WITH HOME GROWN PRODUCE? Barbara Crowther, Andrew Cowan, Myles Bremner, Zosia Walczak, Katherine Langton An interactive workshop exploring the barriers and opportunities for regenerative British produce in school food.		16:00-16:55 CHANGING CLIMATE, CHANGING CROPS: SCALING NOVEL CROPS Jenna Hegarty, Hannah Buisman, David Lord, Josiah Meldrum UK farming faces climate volatility and market pressure, making diversification key to resilience. This session explores novel crops like quinoa, pulses and wine grapes becoming viable and how they can be scaled up.		16:00-16:55 REGENERATING A RIVER John Geldard, Paul Barnes, Hugh Ward A story of wicked challenges and determined people who chose to act together to find and deliver solutions in a way that encouraged collaboration and improvement across government and communities.		16:00-16:55 SCALING REGENERATIVE AGRICULTURE: LESSONS FROM AROUND THE WORLD Henry Dimpleby, John Rogers, Julius Joel, Martin Lines, Hillie van der Bij Leaders from the US, UK, Spain, Morocco and others discuss incentives, policy, technology, knowledge exchange, and farm practices to scale regen farming, and what the UK can learn. Henry Dimpleby chairs.		16:00-16:55 A FARMER-LED LEATHER SUPPLY CHAIN James Allen, Andy Rumming, Claire Beaumont How can a farmer-led leather supply chain support a ground up revival of fully traceable leather? A model focused on local hide collect, salt and store points supplying regional micro tanneries supported by national tannery hubs.			
17:00 17:30-18:25 HOW NATURE DRIVES THE WATER CYCLE Fred Pearce It used to be claimed that rain follows the plough. Now scientists say the opposite – that trees and natural vegetation both stimulate the rain and recycle moisture, and that, worldwide, deforestation reduces rainfall downwind.		17:30-18:25 THE PROBLEM OF LABOUR Claire Ratinon, Emiliano Mellino, Sybil Msezane, Jonathan Nunn When we talk about our broken food system, we rarely talk about the most exploited actor: the farm worker. Claire Ratinon will be in conversation with Emiliano Mellino and Sybil Msezane about what can be done to improve conditions for all workers.		17:30-18:25 HOW ARE SUPPLY CHAINS EVOLVING TO MEET AND MAINTAIN REGEN PRINCIPLES Vicky Robinson, Angela Gibson, Emma Keller, Richard Pywell, Sam Thompson This session examines how global supply chains are shifting towards regenerative agriculture, and explores how trade can incentivise change, recognise value, share risk, and improve data.		17:30-18:25 HARNESSING SUBTLE ENERGIES TO OPTIMISE FARM PERFORMANCE Julia Wright, Patrick MacManaway, Felix Sagar This session discusses TEK (Traditional Ecological Knowledge) approaches for improving seed and plant health using paramagnetic rocks organised as standing stones or more complex design structures.		17:30-18:25 REGEN RESEARCH – WHAT'S ON OFFER, WHAT'S NEEDED? Tom Macmillan, Lindsay Roome, Bryony Graham, Chris Lyons, Simon Pearson The UK spends millions each year on agricultural research. This session will reveal where that money goes. How much is focused on farm? How much on regen? With Defra's ADOPT Fund, how are farmers driving the agenda?		17:30-18:25 ELECTRICAL QUORUM SENSING: A HIDDEN LINK ACROSS EVERY STRAND OF FARMING Hugh Goldsworthy What if the most powerful sensor is already in the ground? Hugh Goldsworthy explores how microbial signals, chemical and electrical, could transform how we read, time, and manage our soils.		17:30-18:25 BANKING ON NATURE – ONLY FOR THE RICH? Adele Jones, Simon Crichton, Molly Easton, Martin Lines, Jeremy Moody This panel explores the land-use debate, balancing rewilding, food production, and the financial impact of ecosystem services like BNG. Is it possible to balance rewilding and sustainable food production, while balancing the book?		17:30-18:25 WOMEN ON THE LAND Abby Rose, Annie Landless, Calixta Killander, Elaine Patarini, Gala Bailey-Barker Hear from female farmers leading the way in creating a bold, brave & beautiful space for farming with nature. How can we normalise & inspire the female farm manager, stock person & tractor driver? We will share our stories; highs, lows, tools & tips.			
18:00 18:30-19:55 DRINKS IN THE STUDY Stefan Kepinski, AUC, ADOPT, Agricology Join us to raise a glass to farmer-led innovation and on-farm research. Got an idea for a trial? Chat to researchers and ADOPT facilitators about getting funding and support to try it out. Kindly sponsored by the Bridging Fields programme.																	
19:00 19:00-19:55 UK WORLD PREMIERE OF THE DOCUMENTARY FILM 'GROUNDSWELL' Rebecca Tickell, Ryland Engelhart, Will Harris, Jonathan Lundgren, Shankar Venkataraman The award-winning Groundswell film takes viewers across five continents, on a global journey into the regenerative movement reshaping our relationship with Earth.		19:00-19:55 OUR REGEN BREWING JOURNEY Duncan Ellis, Tom O'Neill Grab a pint and join Duncan Ellis and Tom O'Neill from Long Man Brewery for an informal conversation about brewing beer on a regenerative farm in the South Downs.		19:00-19:55 THE NUT FARMER OF GLASTONBURY – FILM PREMIERE AND Q&A Elsa Kent, Andrew Kent, Jack Tierney, Sam Sutherland Told through the eyes of his daughter, this intimate 20 minute documentary traces a farming life shaped by loss, isolation, and defiance, and the quiet re-emergence of joy through a new way of working with the land.						19:00-19:55 FARMERAMA RADIO CELEBRATES CEREAL REVISITED Abby Rose, Tom Edmondson, Mary Edmondson, Josiah Meldrum Come join Farmerama for a free drink to celebrate ten years of storytelling, plus an in-conversation with our Cereal Revisited contributors on the power of stories to change practices.		19:00-19:55 IN THE COMPANY OF NATURE: FROM SOIL TO SYSTEMS Frieda Gormley, Lucy Siegle What if businesses behaved like living systems? Journalist Lucy Siegle interviews entrepreneur Frieda Gormley on designing regenerative organisations rooted in Nature's 3.7-billion-year blueprint for resilience.					

Early mornings

YOGA GRASS TENT

Wednesday 06:45, Thursday 07:45
Morning Grounding & Flow
Carly Williams
Start your day with an accessible movement and mindfulness practice designed to help you arrive fully in your body, connect with the land around you and create energy for the day ahead.

Wednesday 07:45 & 08:45, Thursday 06:45
Morning Yoga for All
Violet Stopford
A calm, beginner-friendly yoga session to ease into the festival day. Through simple postures and breathing, we'll root into the present moment and create space for energy, clarity and connection.

BIRDWALKS EVENT MOBILITY STAND

WEDNESDAY 6:00
Start the day off with birdsong! Join us for a walk around the Groundswell site to enjoy the dawn chorus. RSPB staff will be on hand to help with species ID and information, and we'll also have some spare binoculars available.

THURSDAY 6:00
An early morning walk in small groups to identify and discuss farmland birds around the variety of habitats at the Groundswell venue. All experience levels very welcome!

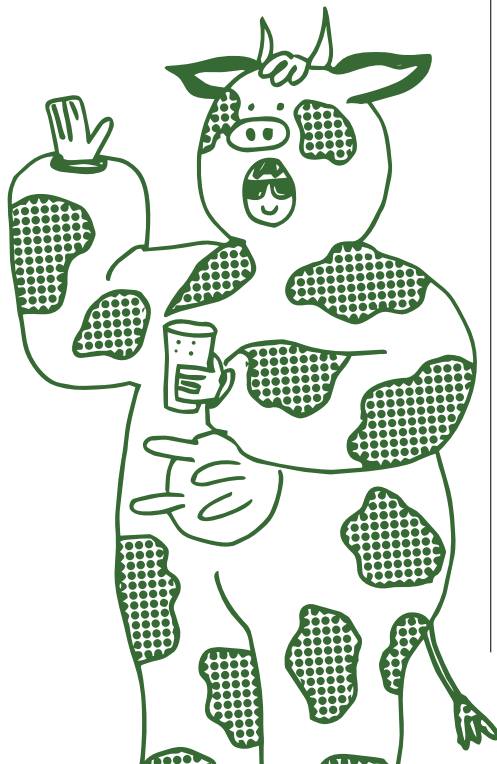

Evenings

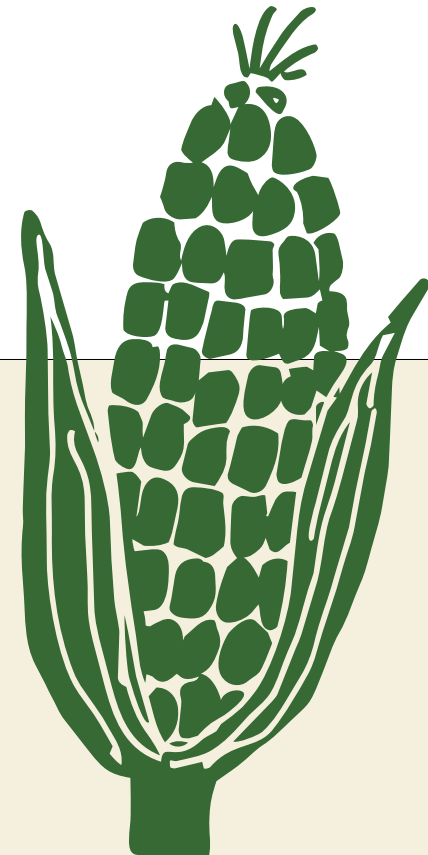

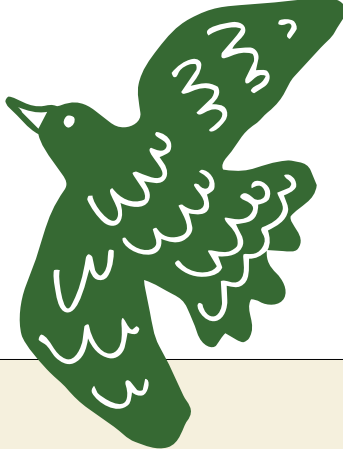

TUESDAY EVENING
EARTHWORM ARMS BIG TOP
20:00 **Shackleton Trio Twos**
22:00 **DJ – Tom Pycraft**

WEDNESDAY EVENING
EARTHWORM ARMS BIG TOP
18:45 **DJ – Rufus Besterman**
21:00 **Alan Power and the Take Twos**
22:30 **DJ – Andy Cato**

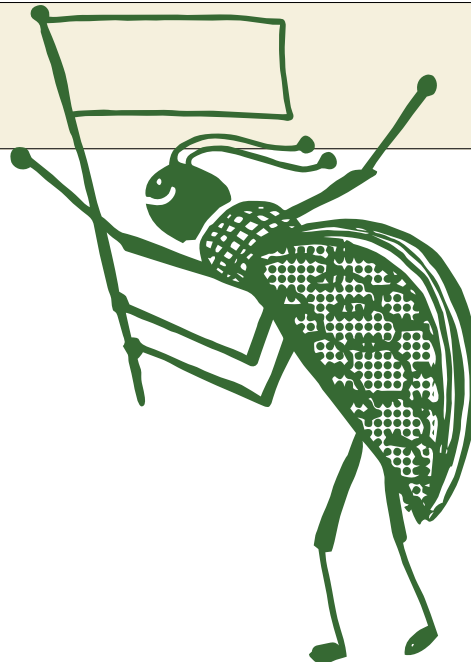

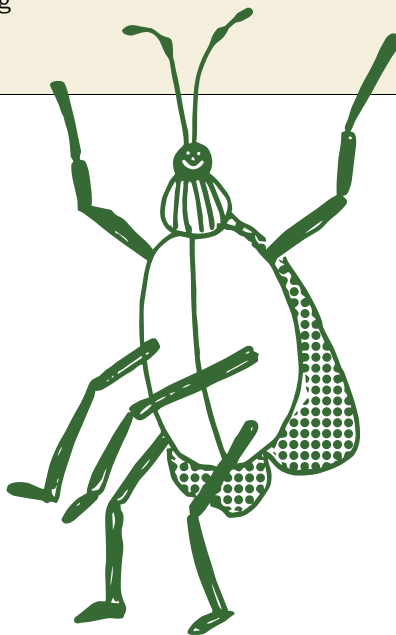

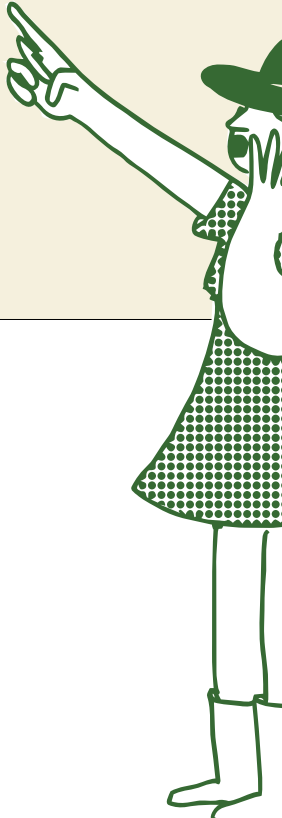

THE TEAPOT
20:00 **Christina Alden & Alex Patterson**

THURSDAY EVENING
EARTHWORM ARMS BIG TOP
18:00 **Adam Clark Trio**
19:30 **Groundswell Bedroom DJ's**

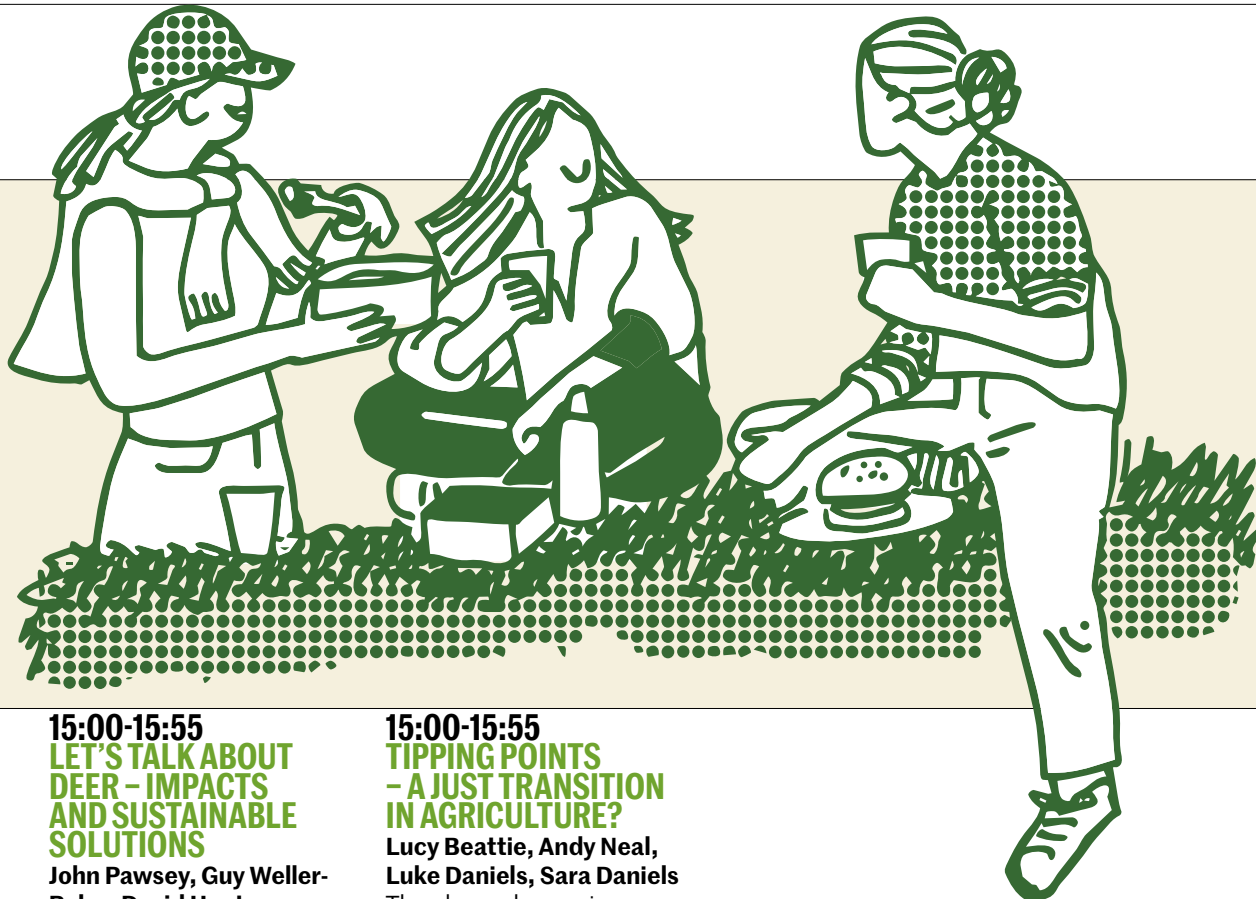

Sessions not filmed		Sessions not filmed		Sessions not filmed		Sessions not filmed		Sessions not filmed		Sessions not filmed		Sessions not filmed		Sessions not filmed		Sessions not filmed		Sessions not filmed					
SAFARI TENT A (BLUE)		SAFARI TENT B (GREEN)		MACHINERY DEMOS		AGROFORESTRY TENT		FARMING WITH NATURE (WILDLIFE TRUSTS)		PFL TENT		SOIL MEDIC TENT		AHDB TENT		BOOKWORM		ELSEWHERE ON SITE					
15:00		15:00-15:55 HONEY BEE SAFARI Matt Somerville, Filipe Salbany A walk to visit bee hives on the Groundswell farm, built to host self-sustaining wild honey bee populations, aligned with ancient nesting wisdom. Learn about the importance of creating a safe home for wild bees in the landscape.		15:00-15:55 THE NEXT PIG CHAPTER Hannah Thorogood, Amy Chapple, Flavian Obiero, Fred Price Join the regenerative pig panel to talk all things pastured pig, visit the Groundswell pigs in the wood, and to help shape the next chapter – what do we want the future of pig farming to look like?		15:00-15:15 COMPOST TURNING DEMO (DW4) 15:15-15:30 TREFFLER MAN @ MACHINE DEMO 15:30-15:45 WEAVING MACHINERY DEMO 15:45-15:00 GARFORD DEMO		15:00-15:55 TREES FOR BEES: AGROFORESTRY FOR POLLINATOR HEALTH Jon Haines, Vicki Hird, Mark Lea, Sarah Holdsworth Pollinators underpin many profitable and resilient farming systems, join to hear how agroforestry can both support pollinators and farm business resilience.		15:00-15:55 FROM FLOOD TO BUD – MANAGING FLOODPLAIN MEADOWS Olivia Nelson, Prof. David Gowing, Katherine Trehane, Matt Johnson, Debbie Lewis Helping farmers navigate through all the water edge options available. A workshop on floodplain meadows, answering your questions from finances to restoration to advice and support.		15:00-15:55 PERMANENT PASTURE – FORGOTTEN JEWEL ON THE FARM Sally-Ann Spence, Clyde Jones A presentation on the management of permanent pasture to prevent soil compaction, boost biodiversity & promote climate resilient grazing.		15:00-15:55 THE BRILLIANCE OF BIODYNAMICS AT FARM SCALE Annette Mueller, Gala Bailey-Barker A discussion of how to utilise biodynamics to feed the soil at a small and large scale.		15:00-15:55 BASELINING AND ENVIRONMENTAL DATA Emily Norton, Lorna Gow, Mary Vickers, Sophie Gregory A session exploring baselining and environmental data. What is it and why should I care?		15:00-15:25 MORE-ON/REGENBEN Ben Taylor-Davies, Jane Craigie Ben chats about his book, More-On, and his life, which ultimately leads to Less-On and what he learnt to become who he is today. 15:30-15:55 DESPITE IT ALL Fred Pearce It is hard not to feel doom-laden about the fate of the planet. But Fred offers a primer for those who think we don't have room for pessimism. Fixing things requires action, and he offers seven reasons for hope.		AFFINITY (X5) 15:00-15:25 UNDER THE MICROSCOPE Jade Prince Discover the hidden world beneath their feet. Using microscopes, we will explore the living microbiology within soil—organisms invisible to the naked eye, yet fundamental to soil function, plant health, and ecosystem resilience.		FRONTIER (D39) 15:30-15:55 BIODIVERSITY BUILDERS: TURNING RISK INTO RESILIENCE Ed Schofield, Hannah Clarke Explore how biodiversity boosts soil health, natural pest control and farm resilience. Discover practical ways to enhance habitats, optimise yields and access funding for sustainable farming.	
16:00				16:30-17:25 TREE PROTECTION FOR AGROFORESTRY Jim O'Neill, Simon Place How to protect your trees effectively, balancing the best outcomes for your business, livestock and crops, within your agroforestry system.				16:00-16:45 COMPOSTING AND FEEDING YOUR SOILS AT SCALE Anne Van Leeuwen, Laurenz von Glahn Join Anne (EARA, Netherlands) and Laurenz (Gut&Bösel, Germany) in discussion on what feeding European soils looks like at scale.		16:00-16:45 COMPOSTING AND FEEDING YOUR SOILS AT SCALE Anne Van Leeuwen, Laurenz von Glahn Join Anne (EARA, Netherlands) and Laurenz (Gut&Bösel, Germany) in discussion on what feeding European soils looks like at scale.		16:00-16:45 COMPOSTING AND FEEDING YOUR SOILS AT SCALE Anne Van Leeuwen, Laurenz von Glahn Join Anne (EARA, Netherlands) and Laurenz (Gut&Bösel, Germany) in discussion on what feeding European soils looks like at scale.		16:00-16:45 COMPOSTING AND FEEDING YOUR SOILS AT SCALE Anne Van Leeuwen, Laurenz von Glahn Join Anne (EARA, Netherlands) and Laurenz (Gut&Bösel, Germany) in discussion on what feeding European soils looks like at scale.		16:00-16:45 COMPOSTING AND FEEDING YOUR SOILS AT SCALE Anne Van Leeuwen, Laurenz von Glahn Join Anne (EARA, Netherlands) and Laurenz (Gut&Bösel, Germany) in discussion on what feeding European soils looks like at scale.		RESONATING FIELDS (L35) 16:15-16:45 THE SOUNDS OF SOIL Rye Hickman, Thomas Martin, Ella Browning, Oliver Hattingh Lessons and practicalities in soil eco-acoustic monitoring with Dr. Ella Browning (University of Oxford) and Oliver Hattingh (University of Sussex)					
17:00		17:00-17:25 FARMLAND BIRD STUDY Dr Vince Lea, Dr Gavin Siriwardena This tour will focus on habitat requirements for declining farmland birds, showing how you can provide conditions to enable them to thrive.				17:00-17:55 WHAT DO RECENT STRATEGIES MEAN FOR FARMING IN 2050? Craig Bennet, Richard Benwell, Helen Browning, Holly Purdey, Kevin Austin Join as we build a policy vision for farming and nature, bringing together the leading voices from the eNGO and nature-friendly farming sectors to discuss nature versus food security.		17:00-17:40 PLANNING FOR THE DRY YEARS: DROUGHT READINESS IN LIVESTOCK SYSTEMS Zoe Charnock Using real case studies from the 2025 drought, we'll explore what worked, what didn't, and what changed afterwards.		17:00-17:40 PLANNING FOR THE DRY YEARS: DROUGHT READINESS IN LIVESTOCK SYSTEMS Zoe Charnock Using real case studies from the 2025 drought, we'll explore what worked, what didn't, and what changed afterwards.		17:00-17:40 LEARN HOW TO MEASURE THE NUTRIENT DENSITY OF THE FOOD YOU GROW Dan Kittredge A discussion on the latest progress with the Bionutrient Food Association movement and how people can get involved, and how to increase the nutrient density of your own produce.		17:00-17:25 COMMUNICATING FOOD AS A FORCE FOR GOOD Mallika Basu Join Mallika Basu, food writer, adviser and author of In Good Taste: What Shapes What We Eat and Drink and Why It Matters for a lively discussion on engaging people on farming, nature, the future of food and positive change.		17:00-17:25 COMPOST WINDROW 17:00-17:25 BALE GRAZING DEMO: PRACTICAL FEEDING IN THE FIELD Tom Burge, James Herrick, Stuart Mitchell A practical field demo with bale unrollers in action, followed by farmer insight into different bale grazing methods, what has worked, the benefits seen, and how it can support outwintering, soils and pasture.							
18:00		18:30-19:15 MOVING THE MOB DEMO Allen Williams, John Cherry Join John Cherry and Allen Williams to see a demonstration of the moving of the cow mob on the herbal ley, and a discussion on the practicalities of mob grazing.		18:30-19:15 SINGLES SAFARI Olivia Rigg, Claire Whittle Join fellow single festival-goers for a 3km guided farm walk designed to spark conversation, connection and maybe something more! No awkward name tags, no pressure, just good people and great conversations		18:30-19:15 A FIRESIDE CHAT WITH BENEDIKT BÖSEL Benedikt Bösel, Philippa Hall A fireside chat and drink with German agroforestry pioneer Benedikt Bösel from 'Gut & Bösel', this conversation will highlight the role of people in ensuring the success of agroforestry sites at large scales.		18:30-19:15 A FIRESIDE CHAT WITH BENEDIKT BÖSEL Benedikt Bösel, Philippa Hall A fireside chat and drink with German agroforestry pioneer Benedikt Bösel from 'Gut & Bösel', this conversation will highlight the role of people in ensuring the success of agroforestry sites at large scales.		18:30-19:15 A FIRESIDE CHAT WITH BENEDIKT BÖSEL Benedikt Bösel, Philippa Hall A fireside chat and drink with German agroforestry pioneer Benedikt Bösel from 'Gut & Bösel', this conversation will highlight the role of people in ensuring the success of agroforestry sites at large scales.		18:30-19:15 A FIRESIDE CHAT WITH BENEDIKT BÖSEL Benedikt Bösel, Philippa Hall A fireside chat and drink with German agroforestry pioneer Benedikt Bösel from 'Gut & Bösel', this conversation will highlight the role of people in ensuring the success of agroforestry sites at large scales.		18:30-19:15 A FIRESIDE CHAT WITH BENEDIKT BÖSEL Benedikt Bösel, Philippa Hall A fireside chat and drink with German agroforestry pioneer Benedikt Bösel from 'Gut & Bösel', this conversation will highlight the role of people in ensuring the success of agroforestry sites at large scales.		18:30-19:15 A FIRESIDE CHAT WITH BENEDIKT BÖSEL Benedikt Bösel, Philippa Hall A fireside chat and drink with German agroforestry pioneer Benedikt Bösel from 'Gut & Bösel', this conversation will highlight the role of people in ensuring the success of agroforestry sites at large scales.		18:30-19:15 A FIRESIDE CHAT WITH BENEDIKT BÖSEL Benedikt Bösel, Philippa Hall A fireside chat and drink with German agroforestry pioneer Benedikt Bösel from 'Gut & Bösel', this conversation will highlight the role of people in ensuring the success of agroforestry sites at large scales.

SAFARI TENT A (BLUE)		SAFARI TENT B (GREEN)		MACHINERY DEMOS		AGROFORESTRY TENT		FARMING WITH NATURE (WILDLIFE TRUSTS)		PFL TENT		SOIL MEDIC TENT		AHDB TENT		BOOKWORM		ELSEWHERE ON SITE					
EARLY MORNING																		Event Mobility Stand 06:00 Early morning bird walk with RSBP		08:15 NIAB Stand Tour			
09:00				09:00-09:55 IMPROVING HABITAT CONNECTIVITY ON YOUR FARM Colin R. Tosh, Tim Coates, Jo Staley How hedgerows and other natural features on the farm can assist migration of wildlife between the habitat patches they need to survive.												10:00-10:25 FOOD FIGHT: FROM PLUNDER AND PROFIT TO PEOPLE AND PLANET Christopher Ramsay, Stuart Gillespie Stuart Gillespie's insights from his 40 years studying food systems, here in conversation with Chris Ramsay at Pelican Ag, he'll chart the efficiencies and issues with the current system and how to fix it.							
10:00		10:00-10:55 AMP GRAZING: READING YOUR FARM WITH 6-3-4 (UA) Stuart Johnson, Andrew Rees, Silas Hedley-Lawrence A practical farm walk on assessing soil, plant response and recovery under grazing, and using the 6-3-4 to guide better, more adaptive decisions.		10:00-10:15 GARFORD DEMO 10:15-10:30 WEAVING MACHINERY DEMO 10:30-10:45 TREFFLER MAN @ MACHINE DEMO 10:45-11:00 COMPOST TURNING DEMO (DW4)		10:30 – 11:25 PROFIT, NOT PAYMENTS: RETHINKING AGROFORESTRY ECONOMICS Stephen Briggs, James Ackworth, Tim Coates Agroforestry doesn't stop at establishment grants. This session is about shifting mindsets from "what support is available?" to "how does agroforestry start to pay for itself?"		10:00-10:55 BUTTERFLIES ON THE HEDGE Tim Hill, Malcolm Hull, James Lunt What can butterflies tell you about the health of your hedge? Hedgerow heroes showcase their work helping to connect rural and urban communities and expand habitats past just the hedgerow.		10:00-10:55 ANECDOTAL SCIENCE: THE EVIDENCE WE SENSE BUT CAN'T YET MEASURE Sara Hall, Nikki Yoxall This session explores the uncomfortable but vital gap between what we can measure and what we know through experience.		10:00-10:55 FEED YOUR SOIL WITH JOHNSON-SU Matt Griffin, Shona Russell A demonstration of how to produce the best Johnson-Su at farm scale.		10:00-10:55 OUTDOOR PIGS IN REGENERATIVE SYSTEMS Andrew Blenkiron, Nicky Campbell, Maddie Dedman Exploring how outdoor pig systems can support soil health and biodiversity.		10:30-11:55 PERMACULTURE PRINCIPLES Wilf Richards Wilf, author of The Power of Permaculture Principles, will provide an overview of the content and process of writing a collaborative book about the principles, a key aspect of the permaculture philosophy commonly applied to land work.		FRONTIER (D39) 10:00-10:55 REDUCING RISK FROM THE GROUND UP: SOIL, CARBON AND PROFITABILITY Clive Wood		AFFINITY (X5) 10:00-10:55 RAINFALL SIMULATOR AND SLAKE TEST Bethany Eaton, Ian Robinson		EVENT MOBILITY STAND 10:00-10:55 FROM ROOTS UP: PRACTICAL TREE RESILIENCE FOR PRODUCTIVE FARMS Matthew Shute, James Bucher, James Robinson	
11:00										11:00-11:25 PUTTING MOB GRAZING INTO PRACTICE: KIT DEMO James Daniel, Chris Berry, Tom Burge, Richard Stanbury, Jamie Jack A practical demo covering the key infrastructure behind successful mob grazing, including electric fencing, mobile water, energising and earthing, with farmer insight on what works in practice.								11:15-11:40 SOUNDS OF THE SOIL Sarah Davenport A facilitated session within an immersive installation using real bioacoustic recordings to make the biological activity of soil audible — offering a sensory encounter with one of most important ecosystems.					
12:00		12:00-12:55 HEDGEROW SAFARI Nigel Adams, James Robinson, Megan Gimber Join us to discuss management options for establishing, maintaining and enhancing hedges at a whole farm scale to build diversity, natural solutions, and climate resilience in your farm.		12:00-12:55 THE PRACTICALITIES OF PASTURED PIGS Amy Chapple, Amelia Greenway, Tom Kemp Join us in visiting the woodland pig pen for a discussion on the practical side of pig keeping and the different demands of pastured, woodland and regen systems compared to more static systems. Bring along your burning questions!		12:00-12:15 OPICO DEMO 12:15-12:30 HORSCH DEMO 12:30-12:45 VADERSTAD DEMO 12:45-13:00 UK FARM AGRI DEMO		12:00-12:55 RECLAIMING OUR ROOTS: FARM WISDOM FOR FUTURE RESILIENCE Holly Purdey, Pat Saunders, David Barker, Patrick Barker 'Retired' farmers share their wisdom on low-input, nature-friendly and intuitive practices in this workshop with "kitchen table" style breakout groups. Let's reclaim knowledge for greater farm resilience.		12:00-12:55 THROUGH THE MAZE: NAVIGATING THE FARMER CLUSTER JOURNEY Ian Stevenson, Jenny Phelps, Jonty Brunyee, Alex Robinson, Alex Donnelly Collaboration is the most effective tool for building resilience in a changing agricultural landscape. Join us for an interactive, practitioner-led workshop that cuts through complexities.		12:00-12:55 COUPLES THERAPY: CANDID STORIES FROM FARMING COUPLES Kate Bradshaw, Stuart & Rebecca Mayhew, Alice & John Pawsey Facilitated by executive coach Kate Bradshaw, this session brings together two Pasture for Life farming couples to share candid stories, practical strategies that help them build harmony and happiness.		12:00-12:55 BOKASHI, MICROBES AND THE POWER OF QUORUM SENSING Andrew Sincock, Jeff Allen and Hugh Goldsworthy Learn how to harness Bokashi and the power of microbes and quorum sensing to transform your soil.		12:00-12:55 RETHINKING NUTRIENT APPLICATIONS Emily Udall, Dr Stephan Temple, Geoff Homer, Luppó Dienpenbroek Exploring smarter nutrient use for more efficient, resilient dairy systems.		12:00-12:25 THE BOYS' TEAM Helen Browning, Lizzie Riviera Helen Browning shares stories from her early years memoir, detailing life in rural England in the 60s and 70s, and how the land and its people shaped her determination both to farm, and to farm differently. A coming of age tale, told with love and grit.					
13:00												13:00-13:55 SOIL SURGERY Get 1-to-1 advice from farmers and soil experts on feeding your soils with compost, Bokashi, Johnson-Su, Korean natural farming, biodynamics, microbes, vermicast and cover crops. Bring your soil samples for free soil tests!											

Thursday Afternoon Main Venues

MAIN STAGE BIG TOP		SEMINAR TENT	GRASS TENT	THE WORKSHOP	THE STUDY	SPEAKER'S CORNER	SOIL TENT	BREAKOUT TENT	EARTHWORM ARMS BIG TOP	
14:00				14:15-14:45 CLOSING THE LOOP: FARMS TURNING WASTE INTO FERTILITY, FEED AND INCOME Thomas Slattery, Doug Wanstall, Andrew Wade, Charlotte Hawkins, William Grant What if everything leaving the farm could come back as something useful? Five farmers running ADOPT trials talk about what circularity looks like in practice.						
15:00		15:00-15:55 THE INDUSTRIALISATION OF AGRICULTURE Will Harris After the end of World War II, food production industrialised, centralised, and commoditised, with convenience and cost becoming the primary motive. Hear the story of a farm family that has chosen to return to the old ways.	15:00-15:55 THE FUTURE WE CHOSE: WHAT HAPPENED WHEN WE PUT NATURE AT THE HEART OF FOOD AND FARMING Rob Hopkins, Helen Browning, Andrew Cowan, Sean Ruffle, Julie Brown Marking 80 years, the Soil Association send Rob Hopkins to 2036. He returns to share his report and explore the transformation with voices across the food system.	15:00-15:55 8 MINUTE IDEAS ON DIVERSIFICATION Alex Cherry, Richard Small, Kelly Jowett, Dr Brendan Clarke, Arthur L-Pemberton, Tracy Wathen-Jones Hear 5 speakers pitch their 8 minute diversification ideas, aiming to encourage resourceful and regenerative thinking, in this fast paced session.	15:00-15:55 LEADERSHIP: LEADING YOURSELF, THE HERD AND THOSE AROUND YOU Kate Bradshaw An interactive, highly practical session to hone an authentic and effective leadership style, with practical tools to deploy just when you need them.	15:00-15:55 BREAD, WINE, AND OLIVE OIL: REGENERATIVE FROM SOIL TO SHELF Stephen Cronk, Sarah Vachon, Andy Cato, Charlotte di Cello, Chris Mitchell Demand for regenerative is growing, but shopper understanding, retailer alignment, and buyer KPIs lag behind. Let's unpack the kinks from farm to shelf – and what it all means for brands, retailers & citizens.	15:00-15:55 FARMING WITH NO REGRETS: REGENERATIVE COMMUNITY BUILDING Elaine Patarini, Esther Park Ten years ago, the No Regrets Initiative set out to grow healthy agricultural lands and the communities that steward them. What happened was challenging, beautiful, and unpredictable – and it was worth it.	15:00-15:55 HOW MUCH DOES IT COST TO BECOME REGENERATIVE AND HOW WILL I FUND THAT? Adele Jones, Simon Crichton, Molly Easton, Martin Lines, Jeremy Moody This session shows real costs, cash flow, lender needs and supply chain roles to make transitions financially viable, using data from a joint venture between Savills and Lloyds Bank.	15:00-15:55 LET'S TALK ABOUT DEER – IMPACTS AND SUSTAINABLE SOLUTIONS John Pawsey, Guy Weller-Poley, David Hooton, Robert Gooch. A solution focused panel exploring the impacts of the expanding UK deer population on habitats, crops, and land management. The session shares practical and collaborative approaches undertaken by farmers.	15:00-15:55 TIPPING POINTS – A JUST TRANSITION IN AGRICULTURE? Lucy Beattie, Andy Neal, Luke Daniels, Sara Daniels The place where science and folk music intersects. A musical journey across the Isles and deep into the soil.
16:00		16:30-17:25 GROUNDSWELL 2026: ROUND-UP AND RE-CAP Tom Martin Join Tom Martin and friends for a lively, audience-led session as we gather the best ideas, practical insights and recurring themes from across the event.	16:30-17:25 TRANSLATING RESEARCH TO PRACTICE: FARMING WITH SCIENCE Aoife O'Driscoll, Joe Martlew, Will Oliver A candid discussion between Niab researchers and forward-thinking farmers on why some research scales while some fails, exploring real-world constraints, system trade-offs, and the role of on-farm experimentation.	16:30-17:25 FARMING EUROPE'S FRONTIER: DIALOGUES ON THE REGENERATIVE EDGE Simon Kraemer, Juuso Joona, José Luis García de Castro, Anne van Leuwen The session gives an update from the farmer-led regenerative movement in Europe, followed by farmers (ES, GER, FIN, NL) presenting their systems and a joint strategy dialogue: What is to be done next?	16:30-17:25 ONLY ART & BEAVER WILL SAVE US! Nick Viney, Dorette Engi Regeneration is a BOLD act of creativity. But what if you've not been trained to use your imagination? Maybe policy has dumbed you down or family have ridiculed you? Discover resilience, joy and thrive within the aesthetics of survival.	16:30-17:25 BEYOND FENCES: LAND SKILLS THAT SUPPORT LIVESTOCK SYSTEMS Claire Whittle, John Atkinson & Rachel Stratton Traditional skills, modern farms: exploring hedgelaying, walling, stockmanship and shearing for resilient systems.	16:30-17:25 FOOD & FARM REVOLUTION Benedikt Bösel, Sarah Langford In conversation with Sarah Langford, Benedikt Bösel discusses the regenerative, multifunctional land-use work on his family's organic farm in Germany and the publication of his bestselling book in English, Food & Farm Revolution.		16:30-17:25 HOW CAN CITIES SERVE THE FARMERS? Bumjoo MacIennan, Tansy Drake Workshop to build bridges between urban and rural communities – how can city residents support the regenerative agriculture movement?	16:00-16:55 FARMER CLUSTERS: MEET, LEARN, AND SWAP NOTES WITH OTHER FACILITATORS Tom Scrope, Lucy MacLennan Compare notes over a (free) drink, try our new National Map and hear about the Facilitator Forum. For facilitators (aspiring or existing), group members, and anyone keen to learn from farmer groups.

10 years of Groundswell

	SAFARI TENT A (BLUE)	SAFARI TENT B (GREEN)	MACHINERY DEMOS	AGROFORESTRY TENT	FARMING WITH NATURE (WILDLIFE TRUSTS)	PFL TENT	SOIL MEDIC TENT	AHDB TENT	BOOKWORM	ELSEWHERE ON SITE	
14:00	14:00-14:55 INSECT SAFARI: SOIL SAVIOURS, FLOWER FRIENDS & CROP CHAMPIONS Kelly Jowett, Louis Brown, Alex Dye, Elliott Cornelius, Dion Garrett Entomologists will be stationed in farm habitats, and participants can see live specimens and discover the wealth of tiny helpers that benefit farm landscapes.	14:00-14:55 PASTURED POULTRY SAFARI Paul Cherry Join Paul Cherry for a walk to the farmermobil pastured layer unit for a warts and all Q&A.	14:00-14:15 TUCKWELLS DEMO 14:15-14:30 CLAYDON DEMO 14:30-14:45 SUMO DEMO 14:45-14:00 HORIZON DEMO	14:00-14:55 HOOVES AMONG THE TREES: RETHINKING WOODLAND GRAZING James Ramskir-Gardiner, Tom Kemp, Lindsay Whistance, Nikki Yoxall A lively panel discussion on livestock in farm woodlands, exploring when grazing helps or harms, where it fits, management realities, and whether hooves could bring neglected woods back into use.	14:00-14:55 DARE TO DO DAIRY DIFFERENTLY Gemma Lane, Chris Clark, Sophie Aplin, Ruth Grice, Monika Baunach Ahead of the launch of our dairy research we invite all to discuss how we can do dairy differently, showcasing that dairy can support nature and be a sustainable business.	14:00-14:55 BUILDING OUR OWN SUPPLY CHAINS: HOW NORTHERN FARMERS TOOK CONTROL OF THEIR MARKETS Rob Bunn, James Newhouse, Al Robinson, Holly Story This session tells the story of farmers in Northern England who chose collaboration over competition to regain control of how their meat is sold.	14:00-14:40 READING THE GROUND: A SOIL SAFARI: WHAT IS YOUR LAND TRYING TO TELL YOU? Tom Fairfax Join Tom for a practical, hands-on session to help farmers read the living signals in their land before reaching for the next input.	14:00-14:55 RAIN, HEAT, REPEAT Mike Gooding, Stephen Briggs, Alice Sin Learning how to farm for the climate that's coming.	14:00-14:25 THE RETURN OF GREY PARTRIDGE Roger Morgan-Grenville The inspiring story of how one Sussex estate brought back the Grey Partridge from a local extinction.	FWAG STAND (E1) 14:00-14:55 THE FWAG EAST POND SAFARI – BRING BACK THE PONDS! Jilly McNaughton, Shaun Dowman, Nigel Russell Visit one of the ponds we recently restored with the Cherrys to see what science tells us: that urgently protecting, restoring and creating networks of ponds is a surefire way to massively boost on-farm biodiversity.	AFFINITY (X5) 14:30-14:55 HEALTHIER SOIL AND WATER – FINDING SOLUTIONS FOR TOGETHER Affinity Water Catchment Team Q&A drop-in session on the Affinity Water stand with members of the Catchment Team to ask questions about implementing nature-based solutions on your farm, practical ways of measuring water quality & soil health.
15:00				15:30-16:10 WILDLIFE AT WAKELYS David Wolfe, Harry Read, Carrie Phoenix, Christian Gossel Wakelyns Agroforestry, established in the 1990s, has matured into a haven for wildlife. This session will explore the potential for agroforestry to enhance biodiversity and how this in turn can connect people to nature.		15:30-16:10 SEEING THE GRASS AHEAD: THE REALITIES OF ADAPTIVE GRAZING Nikki Yoxall, James Daniel, Chris Berry, Claire Beaumont. Let us demystify grazing planning and explain how farmers from a range of contexts deliver adaptive grazing management techniques on their farms.	15:00-15:25 SYNTROPIC FARMING AT SCALE Gavin Youngs, Alessandro Bonavita A discussion of the benefits and practicalities of syntropic farming.				
16:00					16:00-16:55 BOOTS ON THE GROUND OR AUTOMATED SYSTEMS? Vicki Hird, Conrad Young, Tom August, Stephen Panks How should we monitor wildlife on farms? Why monitoring the effects of farm management or conservation actions is a critical part of ensuring their success.		16:00-16:40 VERMICOMPOSTING Tom Fairfax, Anna de la Vega Learn how to set up a simple vermicomposting system on your farm and how it benefits your soil and crops.			FRONTIER (D39) 16:00-16:25 ENVIRONMENTAL CROPS ACROSS THE ROTATION AND WIDER LANDSCAPE Hannah Clarke, Alicia Martin Explore Frontier's interactive demo plots and discover how catch, cover, companion and pollinator crops support soil health, biodiversity, water quality, farm resilience and funding opportunities.	COMPOST WINDROW 16:00-16:25 BALE GRAZING DEMO: PRACTICAL FEEDING IN THE FIELD Tom Burge, James Herrick, Stuart Mitchell A practical field demo with bale unrollers in action, followed by farmer insight into different bale grazing methods, what has worked the benefits seen, and how it can support outwintering, soils and pasture.
17:00										RESONATING FIELDS (L35) 17:00-17:25 THE SOUNDS OF SOIL Rye Hickman, Thomas Martin, Ella Browning, Oliver Hattingh Lessons and practicalities in soil eco-acoustic monitoring with Dr. Ella Browning (University of Oxford) and Oliver Hattingh (University of Sussex)
